Carlos Benitez-Barrera
10525 Lucaya Dr
Tampa, FL 33647

Dear Carlos Benitez-Barrera:

On 10/23/2025, the IRB reviewed and approved the following protocol:

Application Type:	Initial Study
IRB ID:	STUDY009328
Review Type:	Expedited 6,7
Title:	Investigating the Impact of Environmental Noise on Early Language Acquisition and Cognitive Development
Funding:	University of South Florida
IND, IDE, or HDE:	None
Approved Protocol and Consent(s)/Assent(s):	• Online Studies Protocol; • online assent; • online consent; Approved study documents can be found under the 'Documents' tab in the main study workspace. Use the stamped consent found under the 'Last Finalized' column under the 'Documents' tab.

Within 30 days of the anniversary date of study approval, confirm your research is ongoing by clicking Confirm Ongoing Research in BullsIRB, or if your research is complete, submit a study closure request in BullsIRB by clicking Create Modification/CR.

In conducting this protocol you are required to follow the requirements listed in the INVESTIGATOR MANUAL (HRP-103).

Your study qualifies for a waiver of the requirements for the documentation of informed consent for the experimental session online meant to assess language and/or cognitive ability as outlined in the federal regulations at 45 CFR 46.117(c).

This study involving child participants falls under the minimal risk category 45 CFR 46.404: Research not involving greater than minimal risk.

Requirements for Assent and/or Permission by Parents or Guardians: 45 CFR 46.408 Permission of one parent is sufficient. Assent will be obtained as outlined in the IRB application.

Sincerely,

Laura Alfonso
IRB Research Compliance Administrator
